

SILANET

SilaNET is designed for the Australian hay and silage market, providing a strong, reliable Netwrap in application and performance.

SilaNet is the choice for 'all-round' general purpose round bale hay or round bale silage, and has been a consistent performer for many seasons here in Australia.

FEATURES AND BENEFITS

- Provides full bale coverage in 1.23m width
- Provides to the edge coverage in 1.30m width
- Designed for general hay and silage round baling in all Round balers including the modern high capacity machines
- Manufactured from the latest generation of high quality resins for high pressure and tear resistance
- Manufactured to Australian conditions with 12 month guarantee against UV degradation

NETWRAP APPLICATION RATE

SILAGE

Layers on the bale: 3

HAY

Layers on the bale: 4

STRAW / CEREAL HAY

Layers on the bale: 5

It may be necessary to increase the number of turns depending on the baler, bale pressure, bale diameter and crop conditions.
