

# SilaTWINE LSB

## GREAT WHITE LSB - LARGE SQUARE

Great White LSB is a specialised twine for Large Square Baling (LSB) and adds great value through additional metres on the spool.

Its single tape construction and heavily fibrillated manufacturing process guarantees a consistent round twine, superior knot holding and a smooth, less abrasive run through the baler.

## USAGE AND APPLICATION

Constructed for superior strength to maximise bale weight & compression for standard large squares. With extra metres per spool Great White LSB is a perfect choice for use in all modern LSB balers, with application across all Hay or Silage crop types.

## FEATURES AND BENEFITS

- Single Tape Construction, increasing strength and run-ability
- Designed to prevent knot slippage
- More metres per pack resulting in extra bales pressed daily
- Less reloading per day, giving more time baling
- Smooth run through baler, reducing wear on Knotter equipment
- Designed for Australian conditions with 12 months minimum UV protection
