

SilaWRAP ORIGINAL

SILAWRAP (ORIGINAL)

SilaWRAP Original is an economical silage wrapping solution, suited to older model wrappers with 55% gears and lower density bales.

Available in green and black, SilaWRAP Original is UV protected for Australian conditions.

Manufactured in Australia, SilaWRAP Original was the world's first bale wrap, designed and extruded in Australia since 1984.

For new model wrappers with 55-70% gears and higher density bales, we recommend SilaWRAP Ultra.

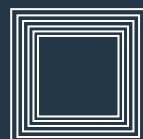

FEATURES AND BENEFITS

- Co-Extruded film with extra high tack levels
- Oxygen barrier properties enhancing the fermentation process
- Designed for general silage wrapping at 55% stretch
- Manufactured from special resins for high puncture resistance
- Designed for Australian conditions with 12 months minimum UV protection
- Made in Australia to International Quality Standards

ORIGINAL RANGE APPLICATION RATE

ROUND BALES
Layers on the bale: 6
50% Overlap
Stretch: 55

SQUARE BALES
Layers on the bale: 6+
50% Overlap
Stretch: 55%

Storing bales for over 12 months, we recommend adding an additional few wraps to ensure an anaerobic environment.

NEW CODE	DESCRIPTION	WIDTH (mm)	LENGTH (m)	MICRON (µm)	COLOUR	ROLLS / PALLET	APPROX BALES PER ROLL
59752003	SilaWRAP Original	750	1500	25	Green	40	20
