

GRAIN BAG COVER

SUSTAINABLE INNOVATION

- **Unmatched Protection:** Agri Novatex's premium grain bag covers defend your grain against birds, foxes, rodents, and livestock damage, ensuring your storage stays secure.
- **Built for Australian Conditions:** Designed to withstand the country's harshest environments, our covers offer durability and reliability in extreme weather.

PRODUCT SPECIFICATIONS

MATERIAL	DESCRIPTION	WIDTH	LENGTH	COLOUR	PLT QTY
Reinforced mesh	Grain Bag Cover	8 metres	20 metres	Green	8

FEATURES

1. High Strength mesh construction
2. UV & Wind resistant
3. Easy & Quick Installation
4. Efficient Coverage

BENEFITS

1. Lightweight yet tough, providing a secure and durable barrier against pests and environmental damage.
2. Protects against harsh sun exposure and strong winds, extending the lifespan of your grain bags.
3. Simple to apply, saving time and effort while ensuring a snug, reliable fit.
4. Suitable for 9ft and 10ft bags, with each 8m x 20m cover securing up to 75 metres using just four units, making it a cost-effective storage solution.

INSTALLATION GUIDE

Critical areas against bag damage is at the start and end sections of grain bags. As a minimum place one 8m x 20m cover on either end of the bag. Filling in the middle section may be necessary depending on vermin pressure.

Place gravel bags every 10m along the edge of the bag to hold the mesh in place. When finished using the cover, fold neatly and palletise for storage.
